

Notice of Public Hearing Regarding Proposed Rate Adjustments for City Utility Services – Water, Sanitary Sewer and Solid Waste

Tuesday, September 8, 2015

Meeting begins at 6:30 p.m.

City Council Chambers

275 Main Street, 4th Floor

Each year the City of Watsonville Public Works & Utilities Department evaluates service needs, State mandated programs and operational costs before recommending rate changes. Typically, utility rates are adjusted annually to account for increases in the cost of electricity, natural gas, chemicals, gasoline and other operational costs and improvements. Currently, aging water pipelines and new State drinking water regulations are also posing financial challenges to our community's water system.

In 2014, California became the first state to set a drinking water regulation specifically for chromium-6. Our Water Division is working hard to meet the new standard as quickly and economically as possible. However, a \$20Million mandated project like this is ten times the regular annual water project expenses. The only feasible way to fund this would be a combination of low interest loans, grants and customer rates. Additionally, our aging infrastructure is creating costly maintenance issues and frequent service disruptions. Watsonville is taking a proactive approach to reduce this cost and disruption with our Water Main Replacement Plan.

The City is proposing rate adjustments for its water, sewer and solid waste utilities. These rate changes are necessary to meet debt service obligations, increased operational costs, and State regulatory requirements and to maintain the current level of service. Even with these changes, City residential utility customers will continue to have the lowest overall utility rates in the county.

At the September 8th public hearing, customers who receive utility services provided by the City will have the opportunity to provide input to the City regarding proposed rate changes. An agenda and staff report for the September 8th meeting for this item will be available by September 6th at <http://cityofwatsonville.org/city-government/city-council/city-council-meetings-2015>.

City Utility Customers may provide comments to the City Clerk regarding the proposed rate adjustments prior to the public hearing. If customers object to the proposed adjustments in the monthly service charges, they may file a written protest with the City Clerk at, or before, the time set for the public hearing.

A valid protest must contain:

- A description of the property (such as address) that is sufficient to identify the property.
- Written evidence that signer(s) is/are the customer of record for the account (provide copy of utility bill)
- Only one protest per account will be counted.

Comments and/or protests can be mailed to: City Clerk, City of Watsonville, 250 Main Street, Watsonville, CA 95076

If a majority of utility customers file written protests, the proposed rate changes will not be put into place. If you have any questions regarding this notice, please call (831) 768-3100 between 8 a.m. and 5 p.m., Monday through Thursday.

Aviso para una Audiencia Pública Sobre el Propuesto Ajuste en Las Tarifas de los Servicios Públicos Agua Potable, Drenaje y Recolección de Basura

Martes, 8 de septiembre de 2015

6:30 p.m.

Cámara del Concilio de la Ciudad

275 de la calle Main, 4^{to} Piso

Cada año el Departamento de Obras y Servicios Públicos de la Ciudad de Watsonville lleva a cabo una evaluación de los servicios proporcionados, mandatos del estado, y gastos de operación. Normalmente, cada año las tarifas de los servicios públicos se ajustan tomando en cuenta las alzas en los precios de electricidad, gas natural, sustancias químicas, gasolina, gastos de operaciones, y el mantenimiento. Actualmente, una nueva regulación Estatal para el agua potable y la condición de las tuberías antiguas de agua están causando retos financieros al sistema de agua de nuestra comunidad.

En el 2014, California fue el primer estado en adoptar una regulación específicamente para el nivel de cromo-6 permitido en el agua potable. Nuestro Departamento de Agua está trabajando para cumplir con la nueva regulación lo más pronto posible y de una manera económicamente viable. El costo de tratamiento para cumplir con esta regulación Estatal, que ha sido impuesta sin fondos financieros, será de \$20 millones. Esta cantidad es diez veces el costo normal de los proyectos anuales de agua. La única forma para financiar este proyecto es mediante la combinación de subsidios, préstamos y el pago por su servicio de agua. Además, nuestra infraestructura es antigua y necesita cambios críticos porque frecuentemente se presentan rupturas y fugas. Estamos tomando pasos proactivos desarrollando un Plan de Reemplazo de las Tuberías de Agua para disminuir las rupturas, interrupciones de servicio, y la pérdida de agua.

Este año se está proponiendo un ajuste sobre las tarifas de los servicios públicos como se indica en la tabla de tarifas en este aviso. Este ajuste de tarifas es necesario para balancear incrementos de gastos de operación, cumplir con requisitos estatales, y mantener el nivel de servicio actual. Sin embargo, los clientes de servicios públicos de la ciudad de Watsonville mantendrán las tarifas más bajas en el condado de Santa Cruz.

El día 8 de septiembre de 2015 se llevara a cabo una audiencia pública en donde los clientes de los servicios públicos de la ciudad de Watsonville tendrán la oportunidad de dar su opinión sobre el cambio propuesto a las tarifas. Una copia de la agenda de la reunión del 8 de septiembre y el informe que acompaña este tema estará disponible el 6 de septiembre en el sitio de Internet <http://cityofwatsonville.org/city-government/city-council/city-council-meetings-2015>.

Los clientes de los servicios públicos de la ciudad de Watsonville pueden dar sus comentarios sobre los ajustes a las tarifas con anterioridad a la audiencia por medio de un aviso escrito. Si se opone al cambio propuesto sobre las tarifas mensuales de los servicios puede presentar su oposición por escrito a la Secretaria Municipal durante o antes del horario fijado para la audiencia pública.

Una oposición escrita debe tener la siguiente información para confirmar su validez:

- La descripción de la propiedad (tal como el domicilio) suficiente para identificar la propiedad
- El nombre del firmante(s) en la oposición escrita, este debe coincidir con el nombre oficial en la lista de cuentas de los servicios públicos de la ciudad de Watsonville.
- Solo se aceptara una carta de oposición por cuenta de servicios públicos.

Envíe su oposición escrita al siguiente domicilio: City Clerk, City of Watsonville, 250 Main Street, Watsonville, CA 95076.

Si la mayoría de los clientes de los servicios públicos presentan cartas con su oposición no se establecerá el cambio propuesto. Si tiene alguna pregunta sobre este aviso, llame al (831) 768-3100 entre las 8:00 a.m. y las 5:00 p.m. de lunes a jueves.

Proposed Utility Rates

Water: Fixed Monthly Charges (Inside City Limits)						
Meter Size	Current Rate	2015/16	2016/17	2017/18	2018/19	2019/20
